

PROPRIETARY DATABASE

PRODUCT SPECIFICATION DATABASE

Improve the speed and accuracy of communicating installation information to the people that need it most.

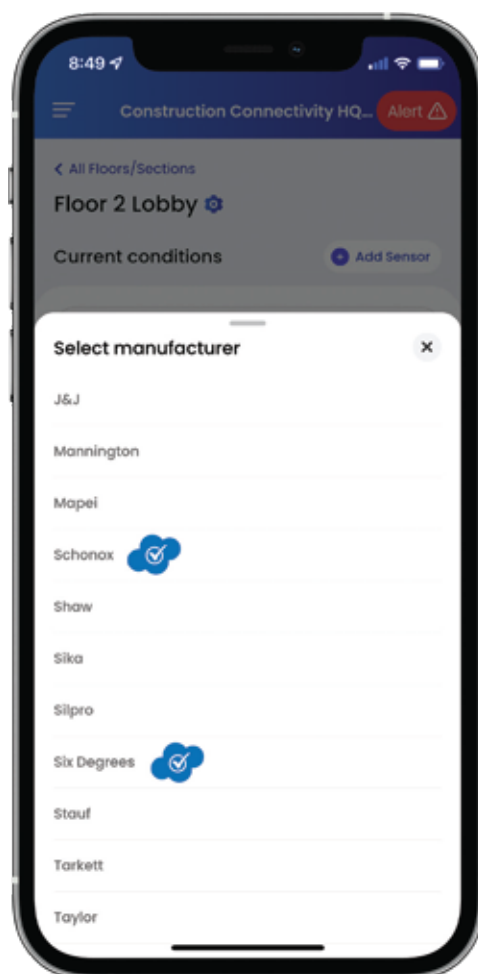

WHY SHOULD A MANUFACTURER PARTICIPATE?

- Helps protect brand integrity by measuring ASTM standards at point of use
- Reduces expensive and time consuming failure analysis and claim resolution efforts
- Lowers annual claim payouts and budget allocations
- Real time communication directly to end users
 - Strategic recall and specification updates
 - Receive direct end user feedback on product performance
 - Targeted new product introductions
- Powerful brand building strategy
 - Linkage to innovative technology platform
- Communicates a commitment to quality
 - Highlights the importance of technical parameters
- Point of use reminders
 - Enhances the likelihood of installation success
- Use the CLIMIT™ Manufacturer Verified™ logo in marketing activities

BECOME A FLOORCLOUD™ MANUFACTURER VERIFIED™ PARTNER IN A SINGLE STEP

Provide product specification data listed below using the CLIMIT™ template.
